Price for Value : 5 stars

*"At this price point, the Highland Oran 4305 delivers an excellent finish, custom made woofers, and a look that should please a lot of customers, especially the demanding women. With its 3 dimensional image, an exceptional quality in tonand a transparency far above the average in this category, Highland Oran speakers supply remarkable performance considering their pricing, provided that you supply them an electronics system worthy of their qualities. As you already understood, we literally felt in love with those charming floorstanders, which deliver a quality system scarcely met at this price level : for audiophiles' pleasure."*

More powerful, with larger bass and midrange drivers, it offers a better response in low frequencies with still a minimal size. The intention was to keep the appropriate symmetry of the 4303 to make it easy to integrate in the most refined environments.

Music lovers will be delighted by Oran 4305 : They perfectly manage the low frequencies... while keeping the subtlety of medium and treble.
