

The Coliseum Premium is today's most complete tab-tensioned motorized screen.

Its material offers a perfect colorimetry and a large field of vision. Its opaque black back allows an installation in front of a window and its black borders improve the contrast level.

A fine adjustment of the lateral tension ensures a perfect material flatness.

The fast and safe attachment system allows an installation on wall, ceiling or suspended.

This fastening system has a large latitude for brackets placement: an important advantage for specific installations.

It uses a Somfy tubular motor, reliable and quiet. Its control interface includes an integrated infra red command (with a fine adjustment system for the screen material positioning), a provided deported sensor (allowing the casing to be slot in), a trigger input and a RS232 interface for home automation.

Specifications

Screen Material

- PVC screen material WMat-EL
- 1,0 Gain
- 150° Directivity
- No hot spot
- Permanent white treatment
- Anti-Static
- No corrugated effect
- Opaque black back
- Black borders
- Optimal surface for DLP and LCD projectors
- Easy and precise adjustment of the fabric tension

Case

- Black lacquered aluminum
- Safe clipping system
- Easy and fast install
- Wall and ceiling mounting
- Hook for hanging installation from ceiling

Motor

- Somfy tubular motor, simple, reliable and quiet

Control methods

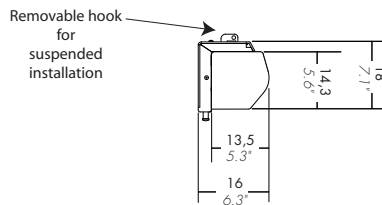

- RS232 for Home Automation
- Built-in IR remote control system
- Remote control with fine adjustment system for the screen material positioning and batteries provided
- Deported IR Sensor provided
- 12-Volt Trigger
- Manual switch (Up, stop, down)

Warranty

- 2 years
